PROFESSIONAL SUMMARY

Versatile and results-driven Application Developer with 3+ years of experience designing, developing, and maintaining scalable web applications. Proficient in ASP.NET MVC, VB.NET, C#, JavaScript, and SQL Server, with additional hands-on experience in hardware/software technical support. Adept at translating complex business requirements into efficient technical solutions. Strong problem-solver committed to delivering high-quality software and ensuring optimal IT performance.

TECHNICAL SKILLS

Backend: C#, VB.NET, ASP.NET MVC, .NET Framework, RESTful APIs

Frontend: HTML5, CSS3, JavaScript, Angular

Database: SQL Server, MySQL, T-SQL Queries, Stored Procedures

AI / Document Intelligence: PDF/Image extraction and JSON transformation pipelines

Domain: E-Invoicing, Logistics, Service Management Workflows

Reporting: Crystal Reports

Tools & DevOps: Visual Studio, VS Code, Postman, Git, GitHub, Azure DevOps, CI/CD

IT Support: System installation, LAN/WAN setup, hardware diagnostics, OS maintenance, printer/peripheral configuration

WORK EXPERIENCE

Application Developer

March 2023 – Present

Amplitude Software System

- Designed, developed, and maintained scalable full-stack web applications using ASP.NET MVC, VB.NET, RESTful APIs, MySQL, HTML, CSS, and JavaScript.
- Developed and managed service provider modules, enabling end-to-end service workflows including service registration, assignment, tracking, and delivery for clients.
- Developed e-invoicing functionality that generates electronic invoices from application billing data and integrates them into the invoicing workflow, reducing manual invoice preparation.
- Implemented an AI-powered document intelligence feature that extracts data from uploaded PDF files and images, converting the content into structured JSON format for downstream system consumption.
- Played a key role in building Net4log, an upcoming logistics platform, implementing core functionalities and improving system reliability through clean, efficient code and comprehensive testing.
- Developed insightful business reports using Crystal Reports to support data-driven decision-making across departments.
- Collaborated with stakeholders to gather requirements and translate them into effective technical solutions, ensuring seamless front-end and back-end integration.
- Provided IT support to international clients for 3+ months, diagnosing and resolving technical issues with professionalism under high-pressure conditions.
- Actively pursuing Microsoft Azure certification to expand cloud computing knowledge and stay aligned with industry trends.

Hardware & Software Technician March 2021 – February 2023

Access Computers

- Installed and configured operating systems, hardware components, and software applications for small businesses and individual clients.
- Diagnosed and resolved hardware, network, and software issues, minimizing downtime and improving client satisfaction.
- Managed preventive maintenance and performance optimization for desktops and laptops.
- Provided guidance on IT upgrades, software deployments, and infrastructure improvements.

EDUCATION

Master of Computer Applications (MCA) March 2020 – March 2022

MES College of Engineering, Kuttipuram

CERTIFICATIONS

- ASP.NET MVC with Angular – Full Stack | Luminar Technolab, Cochin
- Microsoft Azure Certification – In Progress
